Choose an Amana® brand with an air of confidence

An indoor comfort system or one of its components, such as an air handler, is not an every day purchase. Yet, your decision is made a whole lot easier when you consider all that distinguishes the venerable Amana brand from others.

The air handler— HVAC's unsung hero

Often overlooked, an air handler is essential to your home's heat pump comfort system, and critical to maximizing its performance and efficiency. Amana brand Air Handlers are engineered to deliver premium performance and built to last and last and last.

Amana brand has an air handler that can handle the job

With a full line of AHRI-certified air handlers, ranging in capacity from one and one-half tons to five tons, there's an Amana brand air handler that matches your home's HVAC system requirements—including multi-position, and R-410A and R-22 refrigerant-compatible units.

Energy-saving efficiency by design

Innovations in component design such as the use of energy-efficient variable speed motors and all-aluminum evaporator coils further differentiate Amana brand air handlers and are prime examples of our ongoing efforts to improve energy-efficient operation.

*The security of the Amana brand's amazing limited warranties**

To truly seal the deal, Amana brand air handlers are backed by an industry-leading limited warranty*. In fact, Amana brand air handlers feature a 10-Year Parts Limited Warranty*. The longevity of premium Amana brand products combined with this excellent warranty* coverage offers you a level of purchase protection that's the stuff of legend.

LIMITED WARRANTY* PROTECTION

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

Distinguishing Premium Features:

ComfortNet™ Communicating System Compatible

Amana brand AVPVC, AVPTC and MBVC Air Handlers are ComfortNet

control compatible. ComfortNet provides a host of comfort and convenience features that can offer a new level of home comfort control, starting with the easy-to-read, full-color LCD display on the ComfortNet thermostat.

The full-color touch screen display allows easy viewing and quick, simple adjustment to your programmed schedules and temperature settings through the user-friendly interface. You have the flexibility of customizing the screen appearance. ComfortNet gives you the convenience of viewing the outdoor temperature from the thermostat and allows you to see a history of any system changes made over time.

Some ComfortNet thermostat models include wireless network connectivity, so you can modify your system settings down the street or from a different time zone using a smart phone or tablet with an internet connection. The wireless connectivity also allows remote on site connectivity and additional temperature and humidity monitoring options through add-on wireless devices.

ComfortNet products make installation and setup easier than many base, or non-communicating control model products, ensuring your system will be optimized for the most efficient operation. The control provides constant monitoring and notification of a system issue letting you know when it's time to change your air filter or when other system maintenance may be needed.

Ask your dealer about ComfortNet – control that is simple, accurate, automatic and very convenient.

Variable Speed ECM Blower Motors

provide gradual startup and shutdown for quiet, unobtrusive operation with lower energy consumption compared to standard efficiency motors across a wide range of operating speeds. Constant low-speed operation for outstanding filtration and comfort level (models AVPTC and MBVC).

Fixed-Speed ECM Blower Motors

achieve lower energy consumption and more precise airflow when compared to standard efficiency motors (ASPT models).

The Amana® brand Air Handler advantages:

- ✔ **All-Aluminum Coil** – Special grooved tubing provides efficient cooling and durability for long-lasting comfort.
- ✔ **Factory-Mounted Expansion Valve (TXV)** – Precisely controls refrigerant flow for efficient cooling (models AVPTC and ASPT). Both AVPVC and AVPTC models feature factory-mounted expansion valves to more precisely control refrigerant flow. The AVPVC valve is specially tuned for inverter applications.
- ✔ **SmartFrame™ Sub-Structure** – Intelligent structural design both improves the Amana brand air handler's lateral stability and affords a sturdy mounting framework for internal components. It also secures the foil-faced insulation covering the entire blower casing reducing operating noise and cabinet condensation that may occur during normal operation.

Model	Capacity	Blower Motor Type	All-Aluminum Evaporator Coil	Factory-Mounted Internal TXV	ComfortNet™ Compatible	R-410 Chlorine-Free Refrigerant Compatible	R-22 Refrigerant Compatible
